

Transfer Plate

- **Simple aid** making boarding easier.
- The desk **keeps its position** during moving inside the car.
- **Folded** plate **does not interfere** when boarding other drivers.
- It can be installed in both the driver's and the passenger's seat.
- You can have the surface of the board in a **leatherette finish** or with a **softer surface**. A slippery plastic is best suited for smooth movement.
- We supply it with universal assembly kit.

Desk is available in two basic dimensions

- It is possible to make the dimensions on request.

Folded desk

Larger plate with leather softened surface

Special shape for a quadruplegic
