

Loading Hoist

- Loading the wheelchair is simple, safe and physically undemanding.
- Loading the wheelchair is possible even into smaller vehicles due to **minimal installation dimensions**.
- We manufacture loading hoists with capacity up to 140 kg.
- Possible options with **mechanical and electrical turn of the arm**.
- The driver can be eventually wireless.
- Electronics is part of the hoist stand.
- The assembly to some cars by using a pre-prepared frame - no intervention into the vehicle.
- TÜV certification.
- We are able to adapt your specific requirements or the specifics of your market.
